AGA OVERVIEW

The AG Alliance initiates meetings, panels and discussions and serves as a host forum for bipartisan cooperation in the Attorney General community. The AG Alliance cultivates and maintains these relationships through meetings, webcasts, working groups and social activities.

Founded in the West, CWAG has always been a home for western state Attorneys General to collaborate on traditionally western issues like public lands, water rights and tribal issues. With associate members joining from all over the country, and transnational legal issues emerging around the world, our interests and expertise have ventured beyond the boundaries of the West.

The Alliance Partnership in Mexico and the Africa Alliance Partnership have reached new heights, fighting against transnational criminal activity that knows no borders. We all suffer the effects of cybercrime, money laundering and human trafficking rings that reach into our states. Attorneys General around the world can be our allies in protecting our citizens at home.

So while CWAG continues to focus on our core western issues, the Attorney General Alliance will take on emerging issues like cannabis regulation, sports betting, and cybercrime as well as our growing international relationships. We are an alliance of Attorneys General, federal, state and foreign officials, and public and private sector partners throughout the world. We are the Attorney General Alliance.

CWAG OVERVIEW

The Conference of Western Attorneys General (CWAG) is a bipartisan group, originally made up of 18 Western states and territories. The primary purpose of CWAG is to provide Attorneys General with information that enhances their abilities to serve as the top lawyer and chief law enforcement officer of their states.

MISSION

CWAG's primary focus in the United States is to provide a forum for member states and jurisdictions to cultivate knowledge, cooperate on concerns and coordinate actions which improve the quality of legal services available to members. CWAG meetings and conferences vary in focus, but always include important public policy discussions. These conferences are attended by Attorneys General and their staff. CWAG's communication and coordination of information and policy discussions provide a vital bipartisan voice in interplay among federal and state officials.

AGA

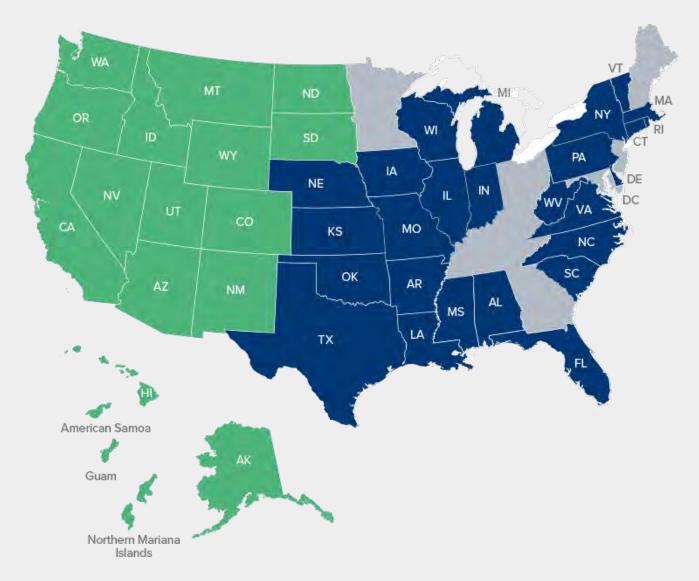

- → AGA has 25 Associate Member states and the original founding 18 CWAG states for a total of 43 US participating states
- → AGA and CWAG work closely with NAAG (National Association of Attorneys General) and are independent and complimentary organizations which work on behalf of the AG Offices

CWAG

- → CWAG has 18 Western Member States and Pacific Territories
- → CWAG focuses on Western issues such as water, energy & minerals, public land management and Native American/Tribal matters

*CWAG and its subsidiary the AG Alliance is a 501(c)3 non-profit organization under the IRS charitable and educational association.

Mike Bailey, US Attorney for Arizona

Brian Moran, US Attorney for Western District of **Washington**

Matthew Schneider, US Attorney for the Eastern District of **Michigan**

Jason R. Dunn, US Attorney for Colorado

AGA FORUMS

TOPICAL MEETINGS

AGA's leadership strategically selects relevant subjects to be the focus of multiple topical meetings per year. Similar to CWAG's annual meeting, topical meetings bring together AGs, AGO senior staff, representatives from the private sector, academics and other state and federal officials to discuss the most pertinent topics that are of concern to the AGs. Recent topical meetings have focused on Cyber Security and Privacy, Marijuana Legalization, Educational Debt, and Prescription Drug Abuse, among others.

ANNUAL MEETINGS

AGA collaborates with AGOs, academics and private sector interests to provide panels which present a variety of views on topics at each annual meeting. This gathering garners participation from across the country, with hundreds of AGO attendees, private sector attendees representing corporations and law firms, and academics and other state and federal officials. The Annual Meeting traditionally hosts over 25 Attorneys General from across the country and up to 850 attendees overall.

WEEKLY NEWSLETTER ROUNDUP

AGA's Roundup is sent to more than 1,400 members of the AGA community, including state staff, SAGE members and other public and private sector supporters of AGA and CWAG. It serves as a valuable tool to keep members and the interested public informed about the important work our Attorneys General do and the activities of AGA and CWAG. The Roundup and accompanying articles are posted on the AGA and CWAG's website.

WEBINARS

Throughout the year, AGA holds webinars on matters of importance to the Attorneys General. As hosts, AGA includes subject-matter experts from the states, private sector, nonprofit and academia to facilitate discussions and exchanges of information.

AGA SUBCOMMITTEES

CYBERSECURITY WORKING GROUP OVERVIEW

State attorneys general are turning their cybersecurity focus from discussions and dialogue to action. These electronic crimes are an ever-increasing threat to consumers, businesses and national security. The cybersecurity working group will provide interested parties an opportunity to dialogue on how mutual data security and privacy efforts might preserve online safety, protect consumers and ensure the rule of law while also respecting the role of states to regulate such efforts.

Working group members include Attorneys General, senior staff, and specialized cybersecurity investigators and prosecutors. As operators in the field, these experts have realized that individual states are at a disadvantage in addressing these criminal activities. Having the ability to coordinate actions across jurisdictions and in collaboration with the private sector lays the foundation for national anti-cybercrime efforts with effective deterrent consequences.

Cybersecurity Working Group Objectives:

- Using open discourse to develop proactive measures that ensure online consumer safety
- Identifying noteworthy and successful partners in the cyberspace to offer industry insights and best practices.
- Promoting a high-level public-private partnership initiative to work collaboratively in bringing the most effective resources to the forefront for all parties.

This limited, invitation only AG Alliance group generally meets three to four times annually. At each meeting, the Attorneys General and key technology staff present the greatest issues they are facing regarding cybersecurity and elaborate on effective tools for law enforcement.

Private sector participants share their expertise as cyber risks & threats are identified and addressed while members work in a collaborative manner to develop solutions.

AGA SUBCOMMITTEES

CANNABIS PROJECT WORKING GROUP OVERVIEW

The legalization of adult-use and medical cannabis is an issue of national importance. Adult-use cannabis is available in eleven states, the District of Columbia, and Guam. Medical cannabis use is permitted in thirty-three states, and an additional fourteen states permit some form of medical consumption with low levels of THC. Canada's national legalization creates cross-border business opportunities and offers a new model for legality. Furthermore, the 2018 Farm Bill represents an important federal shift but may cause confusion for law enforcement and consumers. And despite unclear and conflicting federal guidance, the trend towards complete U.S. legalization is likely to continue. Attorneys General can play a central role in developing and enforcing cannabis laws.

The Cannabis Project will provide interested parties an opportunity to dialogue on how cannabis legalization might preserve public health and safety, protect consumers and ensure the rule of law, while also respecting the role of states to innovate and experiment as laboratories of democracy. The Cannabis Project is supported by the AG Alliance Cannabis Advisory Council and the Cannabis Industry Working Group.

AG Alliance Cannabis Advisory Council ("Council")

- Emerged from a group of regulators, AG Deputies and Assistants and other state regulatory and enforcement personnel
- Comprised of current public sector attorneys from AGOs and regulatory bodies from jurisdictions across the US
- Responds and reports to members of the AG Alliance
- Meets on a recurring basis to share best practices and create opportunities for crossjurisdictional collaboration
- First convened in December in Maryland

AGA SUBCOMMITTEES

(continued)

The Cannabis Industry Working Group ("Working Group")

- Participation is by invitation only and available to industry leaders vetted and approved by the AG Alliance
- Recognizes the need for engagement with leaders in the cannabis, CBD and hemp industry
- Presents an opportunity for engagement by private sector leaders interested in providing relevant information to Attorneys General Offices for educational purposes only

Cannabis Project Meeting Objectives

- To educate and inform the Attorneys General and staff on the national and localized issues emerging in the cannabis, CBD, and hemp marketplace.
- To create a forum for long-term engagement between Attorney General Offices and diverse and critical stakeholders on topics including consumer protection, public safety, public health and financial transparency.
- To create opportunities for public private-partnership in states with a strictly regulated and compliant legal cannabis and hemp market.

AGA RULE OF LAW PROGRAMS

Alliance Partnership

National and international members of the AG Alliance work together through our Alliance Partnership organization to promote the Rule of Law. The Alliance Partnership's work centers around providing exchanges and legal training to our foreign neighbors in an effort to unite the private and public sector and promote strong societies and economies. As an organization, we work to counter the negative effects of cybercrime, intellectual property violations, corruption, money laundering and labor or other human trafficking.

The AG Alliance Partnership (www.AGAlliance.org/ap) program is supported by the state Attorneys General's Offices (AGOs) of 42 US states and jurisdictions. The AG Alliance Partnership promotes collaboration among state Attorneys General from participating countries; supports greater efficiency and transparency in criminal, civil and commercial judicial systems; and provides training programs that promote the effective investigation and prosecution of transnational criminal activity.

During the past decade of fostering institutional relationships with state AGOs in Mexico, the AG Alliance Partnership has generated robust support from every state-level jurisdiction in Mexico, as well as the federal AGO. This collaborative partnership, funded by the State Department's Bureau of International Narcotics and Law Enforcement Affairs (INL), encourages successful prosecutions of trans-border crime and enhanced communication and collaboration with our counterparts in Mexico. Activities include programs to combat transnational crime at the state level, regular communications to strengthen information exchanges among involved AGOs, and training and consulting programs to support Mexican AGOs in their transition to an oral, adversarial criminal justice system. AG Alliance Partnership activities in Mexico have reached more than 35,000 members of the legal community.

AGA RULE OF LAW PROGRAMS

Africa Alliance Partnership

The AG Africa Alliance Partnership (www.cwagaap.org) is the latest addition to our renowned international rule-of-law efforts.

The AG Africa Alliance Partnership seeks to establish and foster robust relationships with justice and law enforcement agencies and officials in Africa to support the rule of law and combat transnational criminal activity. The AGA collaborates with African Ministries of Justice, Attorneys General, Solicitors General and Public Prosecution agencies to share knowledge and experiences in the fight against crimes like human trafficking, corruption, money laundering, cybercrime and other cross border crimes.

2021 SPONSORSHIPS

SPONSORSHIPS: The AG Alliance seeks sponsorships to support the substantive work the association performs on the behalf of Attorney Generals and their offices. The AG Alliance, through the Conference of Western Attorneys General, is a duly registered 501(c)3, non-profit under the IRS designation of a charitable and educational association. All AG Alliance sponsorships are paid on an annual basis and will cover ONE Annual Meeting.

Sponsorship of the AG Alliance is required to participate in all meetings and events. As a general matter, due to maximum attendance limitations at most events, the AG Alliance focuses on sponsors and the resulting relationships and cannot accommodate individuals seeking to register for singular events. Sponsorships and the accompanying allocations to meeting and activities start at \$10,000 per year. Participation in subcommittees require moving to a higher level of support. Please refer to the "2021 Attorney General Alliance Levels".

***Please note**: \$10,000 level sponsorships do not allow for additional guests at meetings and events. \$15,000 level sponsorships allow for up to TWO paying guests.

ALLOCATION PROCESS: The sponsorship materials provide details on the number of allocated attendances per event, per sponsorship level. Consider an "allocation" to be interchangeable with an event or subcommittee "registration." The allocations may be used at the sponsor's discretion. Please note, allocations expire at the end of each sponsorship year and do not rollover.

EXAMPLE OF ALLOCATIONS: Commitments of \$20,000 Diamond level sponsorships and higher will allow you to be a member of either the cyber or cannabis subcommittees. Four attendance allocations are provided at that level. The allocations can be used for the Spring Dinner and accompanying subcommittee meeting. This counts as one use of an allocation. Another allocation could be used for the Annual Meeting and the accompanying subcommittee meeting. This would allow for two remaining allocations, which could be used for the Chair's Initiative or other subcommittee or ad hoc meeting.

SUBCOMMITTEES: Eligibility for subcommittees begins at the \$20,000 Diamond level sponsorship level (elaborated on next page). Subcommittees will meet 3-4 times per year. Attendance at subcommittee events will affect your allocation count at every level except for our Legacy supporters. If you are interested in attending all subcommittee meetings and other AG Alliance meetings, a higher level of support brings additional registration allocations.

1. Cybersecurity Working Group

2. Cannabis Project

******Cannabis Project participation is subject to an approval process.

Those interested in partnerships can contact AGA Executive Director Karen White <u>Karen.White</u> <u>AGAlliance.org</u>.
